

Cornas 2020

Soil and climate

Granitic, eroded on the surface in the form of sand. South / southeast orientation; the plots are located in the Saint Pierre and Mazard vineyards.

Grape variety

Syrah noire petite serine

Vineyard

Average age: 40 years, 7,500 vines / Ha Yield: 31 hl / ha Altitude: 380 m

Viticulture

Environmentally friendly and sustainable

Vinification

Whole grapes sorted without SO2 with twice-daily punching down for 3 weeks. Alcoholic fermentation with indigenous yeasts without artificial thermoregulation. Malolactic fermentation.

Ageing

On lees, reductive ageing without racking, with riddling without SO2 for 16 months.

Tastings

Elegant, rich and mineral wine with a beautiful purple color. It is slightly spicy, fruity (peaches) with floral notes of violet and licorice. It is velvety, tannic and tasty.

TUOTTAJA

Philippe Pacalet

MAA / ALUE

Ranska - Bourgogne
