

Sassella Rocce Rosse Riserva 2016 DOCG Valtellina Superiore

When, in spite of yourself, you are forced to step aside in order not to cause any harm, try at least to take with you the hope that one day you will see your dreams come true. When you find the strength to get back on your feet, you will see those distant targets approaching: the right waiting time is what separates you from the goals you set yourself.

This is how we remember Arturo, when he stubbornly decided to create his Riserva right in the heart of Sassella. He completely renewed the vineyard at 400 metres above sea level, which he had inherited from his father, and decided to produce a wine that could be made only with Nebbiolo from the Alps grapes, which they simply called Chiavennasca in those days. The year was 1984.

Six years later, he decided the time had come to find a name for it and he and his wife Giovanna opted for Rocce Rosse. The colour of these red rocks was that of the passion that fired him to search for the bloody, iron-like flavour of the land of his ancestors, so indelibly impressed on his memory that no flash of modernity could ever have changed.

And indeed, in a glass of Valtellina Superiore Sassella Riserva Rocce Rosse DOCG you can relish the flavour of a root that challenges the granite with its elegance and sincerity, while a gentle breeze rises up from Lake Como and refreshes the valley.
