

Grumello Sant'Antonio Riserva 2009 DOCG Valtellina Superiore

The church of Sant Antonio a Montagna in Valtellina lies to the east of Rocca De Piro. For centuries, it has protected from on high the vineyards that stretch down along the Risc di Sassina, one of the most generous areas of the Grumello, 450 metres above sea level.

Valtellina Superiore Grumello Riserva Sant Antonio DOCG is brought to life by its long maceration and malolactic fermentation with skin contact. Cuddled and cared for like a child by a generous, resolute mother, it matures in large barrels of chestnut wood. Like the church of Sant Antonio, Giovanna, our mother, looks out at dawn every morning from her terrace to make sure the wine growers are taking proper care of these marvels. She decided to marry Arturo in that church on 4 September 1969 and, 40 years later, the amazing 2009 vintage meant we could celebrate the anniversary with the birth of a new wine brought up to appreciate the art of patience a virtuoso who knows when the time has come to perform a solo.
