Barolo Brunate 2020

Vineyards
In the municipalities of La Morra and Barolo.

Grape Variety
100% Nebbiolo for Barolo.

Surface Area
2 hectares.

Soil
This inter-municipal vineyard has been recognized as one of the most important crus in the municipalities of Barolo and La Morra. It boasts an exceptional southern and southeastern exposure and an altitude between 250 and 350 meters in the central part of the subzone. The soil is prevalently limestone-clay and its slightly sandy composition gives the wine an elegant bouquet with fruity and spicy notes.

Year of Planting
From 1979 to 1981.

Vinification
Fermentation takes place in temperature-controlled stainless steel tanks with an automatic pump-over system for a period of 25-30 days. The wine is refi ned for at least three years in large-capacity (5,000 liters) Slavonian oak barrels.

Characteristics
The taste is dry, austere, fl avorful and harmonious, with good concentrations of phenolic compounds due to a signifi cant amount of microelements such as potassium and magnesium.

Serving Temperature
16- 17 degrees C

TUOTTAJA	Francesco Rinaldi & Figli
